

LSB Industries, Inc. Announces That Its El Dorado, Arkansas Facility Resumes Ammonia Production

July 5, 2018

OKLAHOMA CITY--(BUSINESS WIRE)--Jul. 5, 2018-- LSB Industries, Inc. (NYSE:LXU) ("LSB" or "the Company") today announced that the ammonia plant at its El Dorado, Arkansas chemical facility ("El Dorado Facility" or "El Dorado") resumed production on June 30, 2018. As previously announced, El Dorado was taken out of service after a power outage resulted in tube failures in the ammonia plant's boiler on June 4, 2018.

In addition, while El Dorado's ammonia plant was out of service, the company elected to pull forward work previously planned for the September 2018 Turnaround, which shortens the planned Turnaround in the third quarter to five days, from the previously revised twelve days, resulting in additional third quarter production and reduced Turnaround expense.
