December 7, 2015

Announces Closing of \$210 Million Sale of Securities

El Dorado Facility Nitric Acid Plant is Operational and Ammonia Plant Construction Remains on Schedule and on Budget

Expands Board with Addition of Three Independent Directors

OKLAHOMA CITY--(BUSINESS WIRE)--Dec. 7, 2015-- LSB Industries, Inc. (NYSE: LXU) ("LSB or "the Company") announced that it has completed the sale of \$210 million of preferred stock and warrants (the "securities") in a private placement to an affiliate of Security Benefit Corporation ("Security Benefit") that it had previously announced on November 6, 2015. LSB intends to use the net proceeds from the sale of the securities primarily for the completion of construction of an ammonia plant, nitric acid plant and nitric acid concentrator at its chemical facility located in El Dorado, Arkansas ("El Dorado" or the "El Dorado Facility").

The Series E cumulative redeemable Class C preferred stock (the "Series E Preferred Stock") has a 14% annual dividend rate and an economic participation right equal to 2% of the outstanding common stock before the transaction was completed. The Company will be entitled to redeem the Series E Preferred Stock at any time without premium or penalty at the liquidation preference, plus accrued and unpaid dividends plus the value of the participating right. Security Benefit will have the option to redeem the Series E Preferred Stock beginning one day after the maturity date of the Company's existing senior secured notes. Along with the preferred stock, Security Benefit has received warrants to purchase 17.99% of the outstanding common stock before the transaction was completed with an exercise price of \$0.10 per warrant and a ten year term. In addition, the Company has issued a share of preferred stock under a separate series to Security Benefit with voting rights equal to 19.99% of the outstanding common stock before the transaction (the "Series F Preferred Stock"). The voting rights of the Series F Preferred Stock will be reduced in conjunction with any reduction of the warrants or economic participation right.

El Dorado Facility Updates

LSB also announced that at the El Dorado Facility, its new nitric acid plant is fully operational and that its nitric acid concentrator has successfully passed all performance tests. Additionally, construction of the 375,000 ton per year ammonia plant is currently approximately 85% mechanically complete, as compared to approximately 70% as of September 30, 2015. As previously announced, the ammonia plant is expected to be completed during February 2016 and remains on schedule to begin production in the second quarter of 2016. The total cost to complete the El Dorado expansion projects remains in the range of \$831 million to \$855 million (\$564 million spent as of September 30, 2015 and \$197 million to \$216 million to be spent in the fourth quarter of 2015, and between \$70 million to \$75 million to be spent in 2016).

"We are pleased to have secured the additional financing to complete the expansion projects at our El Dorado facility," stated Daniel Greenwell, LSB's Interim CEO. "These projects remain on schedule, with the nitric acid plant in operation and producing, and the ammonia plant anticipated to enter service in the second quarter of 2016. The budget we articulated in early November remains intact. We continue to forecast a material increase in profitability once the El Dorado ammonia plant is in full production and we look forward to reporting our progress to shareholders."

Expands Board of Directors with Three New Independent Directors

In connection with the private placement per the agreement with Security Benefit, the Company has appointed Mark Genender, Jonathan Bobb and Joe Reece to its Board of Directors, effective immediately. Concurrent with these appointments, Charles Burtch and Robert Butkin have resigned from the Board, effective immediately. With the addition of these three new independent directors, the size of the Board has increased from 13 to 14 directors.

Mr. Greenwell added, "We are pleased to add Messrs.
