Jack Golsen, LSB's Chairman & CEO stated, "The current second quarter produced favorable results for sales and even stronger gains in profits. At the same time, we continued to reduce our debt to equity ratio. Our Climate Control business performed extremely well, with a 44% increase in sales, highlighted by a favorable mix as we increased our market position in certain higher margin products. While Chemical sales were only up modestly due in part to excessive rainfall in some of our markets, operating profits rose nearly 65% due to strong margins in the agricultural sector."

#### LSB Industries, Inc. Notes to Unaudited Financial Highlights Six Months Ended June 30, 2007 and 2006

- Note 1: Net income applicable to common stock is computed by adjusting net income by the amount of preferred stock dividend requirements and stock dividends. Basic income per common share is based upon net income applicable to common stock and the weighted average number of common shares outstanding during each period. Diluted income per share is based on net income applicable to common stock plus preferred stock dividend requirements on preferred stock assumed to be converted, if dilutive, and interest expense including amortization of debt issuance costs, net of income taxes, on convertible debt assumed to be converted, if dilutive, and the weighted average number of common shares and dilutive common equivalent shares outstanding, and the assumed conversion of dilutive convertible securities outstanding.
- Note 2: In September 2006, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position No. AUG AIR-1 ("FSP"), accounting for planned major maintenance activities ("Turnarounds"). Effective January 1, 2007, we changed from the accrue-in-advance method which we were using to the preferred direct expensing method in accordance with the FSP. As a result of the change, net income for the six months ended June 30, 2006 as presented in the Unaudited Financial Highlights has been increased \$35,000 and the net income for the three months ended June 30, 2006 has been decreased \$387,000, as a result of the retrospective application of the FSP.
- Note 3: Information about the Company's operations in different industry segments for the six and three months ended June 30, 2007 and 2006 is detailed on the following page.

#### LSB INDUSTRIES, INC. Notes To Unaudited Condensed Consolidated Balance Sheets

- (a) Information at December 31, 2006, is audited and is from the Company's Form 10K/A Amendment No. 1, filed July 18, 2007.
- (b) During the six months ended June 30, 2007, \$4 million of the Company's 7% Convertible Senior Subordinated Debentures due 2011, was converted into 564,790 shares of common stock.
- (c) Also during the six months ended June 30, 2007, as a result of a tender offer completed on March 13, 2007, the Company issued 2,262,965 shares of its common stock for 305,807 shares of Series 2 Preferred that were tendered. Also as a result of this tender offer, an aggregate of approximately \$7.3 million in accrued and unpaid dividends were waived. At June 30, 2007, the amount of unpaid dividends in arrears on our Series 2 Preferred totaled approximately \$4.9 million.
- (d) On July 11, 2007, our Board of Directors approved the redemption of all of the Company's outstanding Series 2 Preferred. We mailed a notice of redemption to all holders of record of Series 2 Preferred on July 12, 2007. The redemption date is scheduled for August 27, 2007, and each share of Series 2 Preferred that is redeemed shall receive a redemption price of \$50.00 plus \$26.25 per share in accrued and unpaid dividends pro-rata to the date of redemption. As of July 12, 2007, 193,295 shares of Series 2 Preferred were outstanding (net of treasury stock). If none of the outstanding shares of the Series 2 Preferred are converted (as discussed below), the Company would pay the holders of the Series 2 Preferred a total of approximately \$14.7 million.

The holders of shares of Series 2 Preferred have the right to convert each share into 4.329 shares of the Company's common stock, which right to convert terminates 10 days prior to the redemption date. If a holder converts its shares of Series 2 Preferred, the holder would not be entitled to any accrued and unpaid dividends as to the shares of the Series 2 Preferred converted. If all of the outstanding shares of Series 2 Preferred are converted, 836,774 shares of the Company's common stock would be issuable.
