NOW, THEREFORE, in consideration of good and valuable consideration, received or to be received, the sufficiency of which the parties acknowledge, the parties agree as follows:

ARTICLE 1**SUMMARY AND CERTAIN DEFINITIONS**

1.1. Summary and Certain Definitions. EPC Contractor shall provide all necessary Engineering and General Conditions for the Project under the fixed price as set forth in Exhibit B. EPC Contractor shall provide all labor, materials, supplies, tools, equipment (except for the Owner-Furnished Equipment), products, and facilities necessary to procure any necessary equipment for the construction of the Project upon real property at the Site on a pass-through

basis, plus 4.5%, as set forth in Exhibit C. All pass-through Work shall be performed by EPC Contractor on an open-book basis that allows Owner or its agent to examine actual costs and expenses of EPC Contractor in connection with the Project.

1.2. The output, capabilities and characteristics of the Project will comply with the requirements of this Agreement and shall also include all required activities up to and including accomplishment of Mechanical Completion and Final Completion, and including participation as reasonably necessary in Process Safety Management (“PSM”), Pre-Startup Safety Review (“PSSR”) and other commissioning support, further including any design documentation in compliance with this Agreement and its exhibits (hereinafter, the “Work”). The term “Work” includes, but is not limited to all supervision, labor, materials, tools, equipment (except for Owner-Furnished Equipment), supplies and services necessary to engineer and construct the Project as defined in Exhibit A, whether or not such labor, materials, tools, equipment, supplies and services are incorporated in the Project. Work also includes the installation by EPC Contractor of Owner-Furnished Equipment into a fully integrated and functioning Project.

1.3. Certain Definitions.

(a) “Contract Documents” include this Agreement, and all Exhibits thereto, and the plans and specifications approved by Owner. The Contract Documents include any modifications to any of them whether such modifications upon mutual agreement are made prior to or after the execution of this Agreement. Contract Documents further define the scope of the Project and the Work.

(b) “Engineering” is all design work, vendor interface and field support required to execute the Project.

(c) “Estimated Contract Price” means the estimated total installed cost prepared by EPC Contractor and includes costs for engineering, procured items and installation of all related equipment and materials, including catalyst and chemicals if so designated by the Owner. The Estimated Contract Price specifically excludes Owner costs, including but not limited to labor and materials for Owner oversight, management, permitting, site preparation, pre-project award costs, Owner-Furnished Equipment and other similar costs incurred directly by the Owner. The Estimated Contract Price as set forth in Exhibit D, is an estimate only, and should not be construed to be a total fixed price for the Project.

(d) “Final Completion” means that (i) all of the items on the punch list signed by EPC Contractor and Owner have been corrected to Owner’s reasonable satisfaction; (ii) if applicable, all lien waivers required under this Agreement have been delivered; (iii) all drawings, as-built plans, vendor operating manuals, warranties and other documents identified for delivery to the Owner have been delivered; and (iv) EPC Contractor has completed its other obligations under this Agreement.

(e) “General Conditions” is a category of costs often referred to as indirect costs that include budgets for various costs required to support project execution. General Conditions costs include but are not limited to staffing cost, both field and home

office staff, such as field supervision, inspection, management, safety, home office support, procurement and project controls. General Conditions also include living and travel expenses for field staff and Project-related travel, temporary facilities such as trailers, portable toilets, communications, printing, mailing and distribution, safety equipment and supplies, protective equipment, etc. General Conditions further include for the Project: (i) Payroll costs, salaries and all other compensation of EPC Contractor's officers, executives, principals, general managers, project managers, engineers, accountants, purchasing and contracting agents, schedulers, expeditors, clerks and other personnel whether stationed at EPC Contractor's principal office or offices or the Site office, except payments made by EPC Contractor directly to Subcontractors, vendors, consultants or suppliers for labor, equipment and materials, including any per diem, payroll taxes, transportation charges and sales tax required by law to be paid in connection therewith, furnished by EPC Contractor and to be incorporated into the Project; (ii) Expenses of EPC Contractor's principal office and branch offices, including the Site office; (iii) Overhead, general and administrative expenses; (iv) EPC Contractor's capital expenses, including interest on EPC Contractor's capital employed for the Work; (v) Rental costs of machinery, equipment, and tools not required to specifically perform the Work; (vi) Costs incurred as a result of the replacement of EPC Contractor's representative; (vii) Premiums for insurance, unless specifically provided in the Agreement as provided at additional cost; and (viii) Any cost or expense not described in Exhibit C, unless approved in advance in writing by Owner.

(f) "Mechanical Completion" or "Mechanically Complete" shall mean the achievement of the following: Acceptance in writing by Owner of a certificate issued by EPC Contractor certifying that i) the physical completion of the Work relating to the Project in accordance with the terms of this Agreement such that the Work is ready to undergo Start-Up, including, setting of the applicable equipment on foundations; connecting such equipment to other applicable equipment with piping, wiring, controls, and safety systems; ensuring that such equipment and such related operating systems are, as applicable, individually cleaned, pressure tested, leak checked, lubricated, and point-to-point checked to verify that such equipment and such related operating systems have been correctly installed so as to respond to simulated test signals equivalent to actual signals received during operation; and ensuring that such equipment and related operating systems are ready for initial operation, adjustment and testing and may be so operated, adjusted and tested without damage thereto or to any other property and without injury to any person; ii) compliance of the Work and the Project with the agreed to standards where applicable; and iii) completion of the Work so that commissioning of the plants or the applicable portion of a facility may commence. Should Owner achieve 72 hours continuous operation of the Facility at full designed capacity, or less if reduction is not caused by Work of EPC Contractor, then the Facility shall be deemed to be Mechanically Complete.

(g) "Modification" or "modification" is either a written and signed amendment to this Agreement or a Change Order authorized in writing and signed by Owner and EPC Contractor.

(h) "Owner-Furnished Equipment" means all equipment set forth in Exhibit A, Section E, Equipment List. This list is expected to change and shall be updated from time to time.

ARTICLE 4 PROGRESS OF THE WORK

4.1 Commencement and Completion. EPC Contractor shall commence the Work immediately and shall achieve Mechanical Completion, January 16, 2015 for all portions of the Project that support the NACSAC unit; May 1, 2015 for all portions of the Project that support the DMW2 unit; and June 1, 2015 for all portions of the Project that support the Ammonia unit. For Final Completion, all Project construction and commissioning support services not later than March 15, 2015 for all portions of the Project that support the NACSAC unit, June 1, 2015 for all portions of the Project that support the DMW2 unit; and September 1, 2015 for all portions of the Project that support the Ammonia unit (the "Completion Date") to support the 531-NH3, 533-DMW2 and 546-NACSAC Project Schedules. All OSBL Work, shall be completed and ready for operations by the Completion Date. The Completion Date may be altered only as provided in this Agreement and any liability for EPC Contractor thereto is limited as further set forth in Article 20 herein.

4.2 Scheduling.

4.2.1 Scheduling and Time Extensions. Attached as Exhibit E to this Agreement is a progress schedule ("Project Schedule") setting forth the durations for all the major items of Work to be performed; the start and finish date of all such activities; the performance tests; and the Completion Date of the Project. EPC Contractor shall submit to Owner updated Progress Schedules each month to reflect the actual progress made and to forecast future progress of the Work. The Completion Date shall be extended only for such number of calendar days as the Work is actually delayed by acts of God, acts or omissions of Owner, delays in the issuance of required permits occurring after November 4,

2013, the presence of any undisclosed hazardous substances (including, but not limited to Hazardous Materials) affecting the Work, a casualty, change in law, flood, fire, or a change order, plus a reasonable number of additional days to allow EPC Contractor to resume Work following such delay, and only then if it is not feasible for EPC Contractor to avoid or to mitigate the impact of the delay (“Unavoidable Excusable Delay”). No extensions to the Completion Date shall be granted due to the negligence or fault of EPC Contractor or its Subcontractors or untimely delivery of equipment or the non-availability of materials or labor, not including the Owner-Furnished Equipment and materials. In order to obtain a time extension due to an Unavoidable Excusable Delay, EPC Contractor must give written notice to Owner within five (5) working days after the commencement of each Unavoidable Excusable Delay, including a description of actions taken to avoid or mitigate the delay and a proposed action plan or re-sequencing to minimize the impact on the Project.

4.3 Liquidated Damages. It is mutually agreed that if EPC Contractor does not complete the Work to the point of Final Completion by the Completion Date, Owner will sustain damage, the precise amount of which is difficult to determine at the time of making this Agreement.

4.3.1 Up to a maximum total amount of \$250,000, EPC Contractor shall pay to Owner as liquidated damages and not as a penalty the sum of \$2,500 per day for each full day of delay if EPC Contractor fails to achieve Mechanical Completion by than May 15, 2015 for all portions of the Project that supports the NACSAC unit; August 1, 2015 for all portions of the Project that supports the DMW2 unit; and November 1, 2015 for all portions of the Project that supports the Ammonia unit (subject to automatic extension for Unavoidable Excusable Delay), provided such delay is due to a) failure by EPC Contractor to prosecute the Work with diligence, or b) EPC Contractor’s or Subcontractor’s negligence.

EPC Contractor further agrees that any assessment by Owner of liquidated damages or payment by EPC Contractor to Owner of liquidated damages is to compensate Owner only for the damages arising out of EPC Contractor’s delay in achieving the Completion Date, and is not a release of any of Owner’s other rights or claims against EPC Contractor, including claims of Owner for defective or improper workmanship of EPC Contractor.

ARTICLE 5 PAYMENT

5.1 Fixed Price Portion of Work. Owner and EPC Contractor agree that EPC Contractor shall be paid for all Engineering Services and all General Conditions for a fixed price, as provided in Exhibit B.

5.2 Variable Cost Portion of Work. Owner and EPC Contractor agree that EPC Contractor shall be paid in accordance with Exhibit C for all Construction Work, excluding Engineering Services and General Conditions included in Exhibit B.

5.3 Payment Procedure. During the course of the Project, progress payments shall be made by Owner to EPC Contractor as follows:

(a) On or before the twenty-fifth day of each calendar month during the performance of the Work or the preceding working day if the last day is a Saturday, Sunday or holiday, EPC Contractor shall submit to Owner an application and certificate for payment, based on the Work completed during the preceding month, using a form approved by Owner.

(b) Each application and certificate for payment shall be accompanied by: (1) copies of all vendors and Subcontractors invoices; (2) a separation of construction materials, services, labor and equipment; (3) releases and lien waivers from EPC Contractor and all Subcontractors and vendors; and (4) other documentation as may be requested by Owner for its proper review of the application and certificate of payment.

(c) Payments by Owner shall be made on or about the 25th day of the following month in which an approved Application and Certificate for Payment properly certified and verified has been submitted or the next working day if the 25th day of the month is a Saturday, Sunday or holiday. EPC Contractor shall be entitled to 1% interest per month on any late payments. Owner reserves the right to verify the accuracy of any such payments both during the Project and upon completion. EPC Contractor shall within a reasonable time period reimburse Owner for any overpayments made during the course of the Project or upon completion. If Owner disputes any portion of EPC Contractor's Application, Owner shall pay the undisputed portion as set forth in this Section 4.3(c), and any disputed portion of the Application shall be subject to the Dispute Resolution provision in Section 23.13 of this Agreement. If Owner fails to make payment to EPC Contractor when due, EPC Contractor shall, after fifteen (15) days' notice to Owner to cure, stop all Work until such time as Owner pays amounts not in dispute and due EPC Contractor. If after EPC Contractor stops work, Owner cures such failure to pay, EPC Contractor shall remobilize to the Site and be entitled to seek a Change Order for additional costs or fees associated with EPC Contractor's demobilization and remobilization to the Site, as well as for any extension of the Completion Date. If Owner's failure to pay continues for a period of sixty (60) additional days, EPC Contractor may terminate this Agreement.

5.4 Use of Payments. EPC Contractor shall use all sums paid to it pursuant to this Agreement for the performance of the Work in accordance with the Contract Documents. Upon the request of Owner, EPC Contractor shall furnish satisfactory proof as to the disposition of any monies paid to EPC Contractor by Owner; provided that no provision shall be construed to require Owner to see to the proper distribution, disposition or application of the monies paid to EPC Contractor.

5.5 Payment Not a Waiver. Neither the approval or making of any payment to EPC Contractor, nor the partial or entire use or occupancy of the Project by Owner shall be an acceptance of any portion of Work.

5.6 Final Payment.

(a) Final payment by Owner is due upon Final Completion but shall not constitute a waiver of claims by Owner arising from terms of warranties unsettled liens, incomplete or defective workmanship, defective materials, or for failure of the Work to comply with requirements of the Contract Documents provided by EPC Contractor under this Agreement.

(b) Final Completion and final acceptance of the Work shall occur only after all Work (including punch list items) provided for in the Contract Documents has been finally completed and accepted in writing by Owner.

(c) Thereafter final payment shall become due upon EPC Contractor delivery to Owner the following:

(i) written statement that all payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which Owner or its interest in the property, or the Site or the Project might in any way be responsible, have been paid, or will be paid with funds received from final payment, or otherwise satisfied, along with any documentary evidence requested by Owner, including without limitation, lien waivers;

(ii) other data establishing payment or satisfaction of all such obligations, such as receipts, releases and waivers of liens, arising out of the Work, to the extent and in such form as may be designated by Owner;

(iii) Warranties assigned to the Owner; and

(iv) Equipment Operating manuals.

5.7 The Right of Owner to Withhold Payment. Owner may, on account of subsequently discovered evidence, withhold or nullify the whole or part of any payment, including Final Payment, to such extent as may be necessary to reasonably protect itself from any of the following:

(a) defective Work not remedied;

(b) third-party claims for payment or liens filed or reasonable evidence indicating the probable filing of such claims or liens;

(c) failure of EPC Contractor to make payments properly due to Subcontractors pursuant to applicable subcontracts or purchase orders or failure of the Subcontractors to make payment properly due for any portion of the Work or failure of EPC Contractor or its Subcontractors to make payment properly due for equipment, materials or labor;

(d) evidence of fraud, over-billing or overpayment discovered upon audit or otherwise;

(e) failure of EPC Contractor to prosecute the Work in accordance with the Contract Documents; or

(f) damage to Owner or Owner's affiliates caused by EPC Contractor, or any entity for whom EPC Contractor is responsible.

ARTICLE 6
EQUIPMENT AND MATERIALS

6.1 Materials Provided by EPC Contractor.

(b) All equipment, machinery, material, and articles incorporated in the Work shall be of good quality and new.

6.2 EPC Contractor Equipment Procurement.

6.2.1 Except for the Owner-Furnished Equipment, EPC Contractor shall procure and pay for all equipment and materials to be incorporated in the Work or necessary for operation or continued operation of the Project, including any spare parts and components set out in Exhibit A. Owner shall provide to the Project for installation by EPC Contractor all Owner-Furnished Equipment.

ARTICLE 8
SUBCONTRACTS

8.1 Definition. As used in the Contract Documents, a "Subcontractor" is a person or organization that has a contract with EPC Contractor, or any other entity working under EPC Contractor's contractual chain of privity, to perform any portion of the Work, to furnish any product, furnish any technology license, technical assistance or advice, or to furnish any article, machinery, equipment or materials to the Work.

8.2 No Contractual Relationship with Owner. Except as expressly provided by this Agreement, Article 22 - Right to Terminate of Owner, nothing contained in the Contract Documents or otherwise shall create any contractual relationship between Owner and any Subcontractor, except that it is understood and agreed that Owner is an intended third party beneficiary of all (i) contracts with design professionals; (ii) subcontracts; (iii) purchase orders; and (iv) other agreements between EPC Contractor and third parties. EPC Contractor shall incorporate the obligations of this contract with Owner in its respective contracts with design professionals, subcontracts, supply agreements, purchase orders and other agreements. No subcontract shall relieve the Subcontractor of its responsibilities and obligations should any Subcontractor fail to perform the Work in a satisfactory manner. EPC Contractor is fully responsible to Owner for the acts and omissions of its Subcontractors and of persons either directly or indirectly employed by them.

8.3 Approval of Subcontractors. Based on substantial and/or material reasons, Owner reserves the right to reject any unsatisfactory Subcontractor on the basis of safety record, financial status, insufficient resources, security risk, or other criteria which could negatively impact the successful on-time completion of the Project. Good faith and reasonableness will govern any such decision. Owner's approval of Subcontractors does not relieve or release EPC Contractor from full responsibility for the adequate, conforming and timely performance of the Work. EPC Contractor is solely responsible for ensuring that all Subcontractors are qualified to perform their work timely and in accordance with the plans, specifications and this Agreement.

8.4 Subcontract Terms and Conditions. All portions of the Work performed by a Subcontractor shall be pursuant to a written agreement acceptable to Owner and which shall contain provisions that:

- (a) preserve and protect the rights of Owner under the Contract Documents with respect to the portion of the Work to be performed under the subcontract so that the subcontracting will not prejudice such rights;
- (b) require that all Work be performed in accordance with the requirements of the Contract Documents;
- (c) require that all work comply with the requirements of OSHA and all other applicable engineering codes, construction codes, and other applicable codes or applicable trade or legal regulations.

(d) require that all work comply with all federal, state and local environmental statutes, regulations and ordinances, including without limitation, environmental statutes, regulations and ordinances;

(e) require the Subcontractor to meet standard on-site contractor requirements as established by Owner and by the El Dorado Chemical Company plant.

(f) require submission to EPC Contractor of periodic applications for payment accompanied by a release and lien waiver to the extent of each payment;

(g) require that all requests for change order, additional compensation or extensions of time be submitted to EPC Contractor in sufficient time so that EPC Contractor may comply in the manner provided in the Contract Documents for like requests by EPC Contractor upon Owner; and

(h) establish that the Owner is an intended third-party beneficiary of the subcontract, agreement or purchase order, provided that if any Subcontractor refuses to agree that the Owner is a third-party beneficiary of the subcontract, EPC Contractor shall so advise Owner, and Owner shall consider the circumstances and alternatives and may reasonably waive this requirement on a case by case basis.

ARTICLE 9 CHANGES

9.1 Changes in the Work.

(a) Either Party, without invalidating the Agreement, may order or seek extra Work or make changes by altering, adding to or deducting from the Work by executing a Change Order in the form provided by Owner, attached as Exhibit F. All work performed pursuant to a Change Order shall be performed under the terms and conditions of the Contract Documents.

(b) Owner shall have authority to make changes in the Work not involving extra cost, and not inconsistent with the purposes of the Project, but otherwise, no extra work or change in the Work shall be made unless pursuant to a written Change Order. No claim by EPC Contractor for additional compensation, cost or fee or any extension of the Completion Date shall be valid unless provided in a Change Order.

9.2 Change Order Procedure. Upon receipt of a request from Owner, or upon its own request, for extra work or changes in the Work, or for deletions or reductions in scope, EPC Contractor shall furnish to Owner, within five (5) calendar days, a statement setting forth in detail the proposal of EPC Contractor for performing the extra work or changes or for deleting the work or reducing the scope and the effect of the extra work or changes, of the deletions or reductions, if any, on the contract price and Completion Date. If Owner approves in writing the

proposal of EPC Contractor, a Change Order in the form provided by Owner shall be executed by the parties and the contract price and the Completion Date shall be adjusted. All Change Orders must be executed by Owner's authorized representative or such other individual designated in writing by an officer of Owner, subject to any limitations set forth in such written designation, in order to be valid.

9.3 Change Order Pricing.

(a) Increases in the Scope. Any increase in the contract price attributable to a Change Order performed by EPC Contractor or any of its Subcontractors shall not exceed the sum of the following:

(i) the actual costs to EPC Contractor to perform the Change Order, as calculated from the Rate Schedule attached to Exhibit F, Change Order form; and

(ii) the actual cost of Subcontractors to perform the Change Order, with a 4.5% mark-up;

(b) Decreases in the Scope. The decrease in the contract price attributable to a Change Order deleting or modifying a portion of the scope of Work shall equal all costs incurred to execute such deductive change order less the sum of the following:

(i) the actual labor cost that EPC Contractor would have incurred to perform the scope of Work deleted in the Change Order;

(ii) the actual cost of Subcontractors or materials that EPC Contractor would have incurred in performing the scope of Work deleted in the Change Order;

9.4 Unconditional Obligation to Proceed. Notwithstanding anything herein to the contrary, EPC Contractor will proceed with the Work when so directed by Owner in writing and attempt in good faith to comply with the Completion Date as amended by Owner's directed change, even if it has a dispute with Owner concerning the amount to be paid under Section 8.3 or any extension of time which is or could be due to EPC Contractor pursuant to a Change Order.

ARTICLE 10 THE UNDERSTANDING OF EPC CONTRACTOR

10.1 Unforeseen Work Site Conditions. If concealed or unknown conditions, including, but not limited to, surface, subsurface and/or site environmental conditions, which affect in whole or in part the performance of the Work are encountered, then EPC Contractor shall stop work and give written notice thereof to Owner before conditions are further disturbed and promptly after first observing such changed conditions by EPC Contractor. The Agreement (e.g., costs, prices, schedule, etc.) shall be adjusted in accordance with the changes clause.

ARTICLE 11
THE REPRESENTATIVE OF OWNER

11.1 The Representative of Owner. Representative of Owner shall have full authority to stop the Work whenever in the best judgment of the Representative of Owner, such stoppage may be necessary to insure the proper execution of the Work and the Agreement shall be equitably adjusted as a result of any wrongful stoppage. The Representative of Owner shall have authority to reject any Work and materials which do not conform to the Contract Documents, and to decide questions which arise during the execution of the Work. The Representative of Owner shall also designate in writing all persons affiliated with Owner who are authorized to have access to the Work. Owner shall have the right to replace the Representative of Owner at any time with or without cause, following written notice to EPC Contractor.

ARTICLE 12
SUPERVISION OF THE WORK

12.1 The Construction Manager of EPC Contractor. EPC Contractor shall designate in writing to Owner, and keep assigned to the Work during its progress, a competent Construction Manager satisfactory to Owner. The Construction Manager shall represent EPC Contractor and all directions given to him by Owner shall be binding as if given to EPC Contractor directly. The Construction Manager shall devote full time to the Work and shall maintain his office on the site of the Work. He shall direct, coordinate and supervise all Work, inspect all materials, excluding Owner-Furnished Equipment, delivered to the Project to ascertain whether or not they comply with the requirements of the Contract Documents, and reject all non-conforming materials or workmanship.

12.2 Owner's Right to Review the Work.

(a) Owner and persons designated by Owner shall at all times have access to the Work whenever it is in preparation or progress and EPC Contractor shall provide proper facilities for such access and for a detailed review of the Work by Owner. If Owner discovers any Defective Work in connection with any review, it shall report such Defective Work to EPC Contractor and EPC Contractor shall, at no cost to Owner, immediately correct the defective work.

(b) If the Contract Documents, the written instructions of Owner, laws, ordinances, rules or regulations, or any public authority require any of the Work to be specifically tested or inspected, EPC Contractor shall give Owner timely notice of its readiness for inspection and testing, and if the test or inspection is performed by an authority other than Owner, of the date set for such test or inspection. Inspections by Owner shall be promptly made and, where practicable, at the source of supply. If any of

the Work should be covered up without the approval or consent of Owner or any necessary authority, it shall be uncovered for examination, if required by Owner or such other authority, at the sole expense of EPC Contractor.

(c) Re-examination of questioned work that has been previously inspected by Owner may be ordered by Owner and, if so ordered, the questioned work shall be uncovered by EPC Contractor. If such work is found to be in compliance with the Contract Documents, Owner shall pay the actual documented and verified cost of the re-examination and if such re-examination causes the Completion Date to be extended, grant a time extension and shall pay all costs incurred as a result of such extension via the contract change procedure accordingly. If such work is found not to be in compliance with the Contract Documents, EPC Contractor shall bear the costs of the re-examination, and the costs to correct.

ARTICLE 13
THE RIGHT OF OWNER TO AUDIT

13.1 Owner shall have the right, but not the obligation, to audit or examine all cost documents, cost records, pertaining to the Project through the Project and for one year after Final Completion, excluding EPC Contractor's documentation to support any fixed price portion of the Work.

ARTICLE 14
SEPARATE CONTRACTS

14.1 The Right of Owner to Award Separate Contracts. Owner reserves the right to award other contracts in connection with the Project (but not within EPC Contractor's scope of Work under this Agreement) at or in the vicinity of the Project and EPC Contractor agrees to cooperate fully and not to unreasonably interfere with the work of such other contractors. Notwithstanding anything to the contrary, in the event that Owner reasonably believes that EPC Contractor is not sufficiently skilled or lacks required expertise or does not provide a reasonable value to Owner for particular portions of the Work or areas subject to Change Orders, then Owner may award such work to third party contractors.

14.2 Responsibility for Damage. Should EPC Contractor cause damage to the Work, the Owner's property, the property of third parties or to any person, EPC Contractor shall reimburse the Owner or such other damaged or injured person for all associated costs and expenses for the repair or replacement of the damaged property, excluding any consequential loss as set forth in Section 19.4. If such damaged person sues or arbitrates with Owner or Owner affiliates on account of any damage alleged to have been caused in whole or in part by EPC Contractor or anyone for whom EPC Contractor is responsible, Owner shall notify EPC Contractor who shall indemnify and hold Owner or Owner affiliates harmless and continuously defend such suit or arbitration at the expense of EPC Contractor, and if any judgment or award against Owner or Owner affiliates results, EPC Contractor shall pay or satisfy the award.

ARTICLE 15

(a) In addition to any other warranties contained in the Contract Documents, EPC Contractor warrants to Owner and its successors or assigns to the Project that all materials and equipment furnished by EPC Contractor in performance of the Work will be new, that all Work will be of good quality, free from faults and defects and in conformance with the Contract Documents. All Work not so conforming to these standards shall be considered defective and corrected by EPC Contractor at no cost to Owner ("Defective Work").

If EPC Contractor should neglect to prosecute the Work properly or fail to do anything required by the Contract Documents, and Owner does not receive acceptable assurances from EPC Contractor or EPC Contractor does not undertake reasonable steps for due performance satisfactory to Owner within ten (10) days after written demand is made, then Owner may, without prejudice to any other remedy it may have under this Agreement or at law or in equity, make good any deficiencies in the Work.

16.2 Deduction for Uncorrected Work. If Owner reasonably and in good faith deems it inexpedient to correct deficiencies in the Work pursuant to Section 15.1, Owner may deduct the reasonable cost of doing so from the payment then due, any retainage held by Owner, or any payment thereafter due EPC Contractor, but the making of such a deduction shall in no way be deemed an election or limitation of remedies by Owner.

If such failure to pay continues for a period of sixty (60) additional days, or if Owner fails to cure its Article 3 obligations within the cure period, EPC Contractor may terminate this Agreement.

23.2 If EPC Contractor terminates this Agreement due to an Event of Owner Default, EPC Contractor, if not already done so, shall immediately demobilize from the site. No consent or waiver, express or implied, by either party to or of any breach or default by the other in the performance of any of its obligations shall be deemed or construed to be a consent or waiver to or of any other breach or default by such party. Neither the silence of Owner nor Owner's failure to complain of any act or failure to act of EPC Contractor or to declare EPC Contractor in default, irrespective of how long such failure continues, shall constitute a waiver of any right of Owner.

25.2 Conflicts. In the event of any conflict between the terms, conditions, obligations or provisions expressed in this Agreement and any term, condition, obligation or provision in any of the other Contract Documents, the term, condition, obligation or provision of this Agreement shall govern to the extent of the conflict.

25.3 Assignment. This Agreement shall not be assigned, delegated or transferred in whole or in part by EPC Contractor nor shall EPC Contractor assign any monies due or to become due to it without the prior written consent of Owner. Owner shall be free to assign this Agreement without consent of EPC Contractor, and upon notice thereof and assumption of that Agreement by any such Assignee, EPC Contractor shall perform all of its obligations for such Assignee and Owner shall be released from liability hereunder. 25.12 Dispute Resolution. If a dispute arises out of or relates to this Agreement or its breach, and if the dispute cannot be settled through direct discussions by management representatives of both Parties, the Parties agree that prior to the filing of any legal action, they will first try to settle the dispute by non-binding mediation, using a certified mediator or certified mediation service. The parties shall share the mediation costs including the mediator's fee equally. Failure of the Parties to resolve the dispute through mediation shall in no way remove the right of either Party to pursue any legal action or recourse after the mediation has occurred. Notwithstanding the foregoing, either Party may seek injunctive relief from any court of competent jurisdiction at any time in case of a breach of any term of this Agreement or other cause of action involving risk of imminent and irreparable injury or harm.
