**FOR IMMEDIATE RELEASE**

**LSB INDUSTRIES, INC. PROVIDES OPERATIONAL UPDATE ON ITS  
PRYOR, OKLAHOMA FACILITY**

OKLAHOMA CITY, Oklahoma — September 28, 2017 — LSB Industries, Inc. (NYSE: LXU) (“LSB” or “the Company”) today announced that the ammonia plant at its Pryor, Oklahoma chemical facility (“Pryor Facility” or “Pryor”) experienced a minor fire and was taken out of service on September 23, 2017 to repair damage to some of the plant’s electrical controls, wiring and piping. None of the Company’s employees were injured, there was no damage to the reformer or to other major pieces of equipment, and there was no release of ammonia.

LSB management expects the repairs to be completed and ammonia production to resume by the end of October 2017. The Company plans to meet customer commitments for pre-sales of products by either shipping from other facilities or by purchasing them from third parties and thus, the ammonia plant downtime will not result in reductions of UAN or ammonia sales volumes.

Management expects that the EBITDA impact resulting from the repair expenses, the excess cost of purchasing UAN versus producing it, and the reduced absorption of fixed costs will be approximately \$1.5 million to \$2.0 million for the third quarter of 2017 and \$2.5 million to \$2.75 million for the fourth quarter of 2017.

LSB will provide an update on the progress of the repairs and the impacts of the downtime on financial results when the Company reports third quarter 2017 results in late October.
